

TidalFit[®]

THE EXERCISE POOL

A black and white photograph of a man with a muscular physique sitting in a hot tub. He is smiling and looking towards the right. The hot tub is filled with water, and a wooden deck railing is visible in the background.

THE BACKYARD

For the Family

TidalFit Exercise Pools are ideal for families looking for an alternative to a full-sized backyard pool. The more cost-effective TidalFit not only delivers many of the same features as a regular pool, but is also much easier to maintain. Temperature control keeps a TidalFit Exercise Pool in use all year round. An ideal backyard solution for family amusement.

For Fitness

As a tool for fitness, health and well-being, the swimming and water resistance exercises possible in TidalFit Exercise Pools benefit people of all ages. These low-impact, high-resistance exercises are ideal for achieving general fitness while avoiding injury. Get healthy in the convenience and privacy of your own backyard.

FAMILY & FITNESS INNOVATION

Swim Jet System

Swim training is one of the most complete and beneficial ways to lose weight, develop strength, and increase endurance. The Swim Jet Systems are at the core of the TidalFit Exercise Pool line allowing you to adjust the amount of current you swim against. Offered in different configurations, your Swim Jet System can help you lose a few pounds or assist in your competitive swim training.

Aquatic Training System

Your TidalFit Exercise Pool can include aquatic training equipment:

ROWING

- Rowing Bars

Smooth, low-impact, and non-load bearing, rowing spreads the exercise intensity evenly over the body's three major muscle groups: the torso, legs, and arms. This **even distribution of exercise** helps tone all muscles, instead of just one group.

STRENGTH TRAINING

- Resistant Cords, Clips, and Handles

Resistance cords are used in the TidalFit pool for curls, tricep extensions, chest presses, shoulder pulls, and back pulls. These upper body exercises are specifically designed to **build strength** and lumbar core stability. The cords vary in size to accommodate beginners to advanced conditioning.

AQUA TREADMILL

- Stationary Resistant Swim Tether

The resistance swimming tether training system adds dimension to the range of the TidalFit exercise options. The buoyancy of water provides a virtually weightless environment, allowing you to walk with minimal stress on joints and bones. Walking against the resistance of water also increases the rate at which you **burn calories** and strengthen muscles.

Variable Flow

The TidalFit Exercise Pool Swim Jets are equipped with **VARIABLE FLOW**, giving you control over the amount of water current generated. Allowing you to adjust your workout, Variable Flow Swim Jets offer the versatility and flexibility needed for a swim training program.

THE NEW

DT-19

Dual Temp

FITSPA

The DT-19 Dual Temp FitSpa features a 13-foot exercise pool with built-in stairs PLUS a 6 person hot tub with 35 jets and separate controls.

Dimensions

- (4) 6 in. Swim Jets (175 GPM Rated)
- (2) 4.0 HP 1-Spd Swim Pumps with Speed Control

Hydrotherapy System:

- 35 Stainless Steel Helix Jets
- (2) 3.0 BHP 1-Spd Pumps

The DT-19 Dual Temp FitSpa

TidalFit Swim Spas have all the benefits of a full size pool with less cost, less space and less maintenance. We set the industry standard for low impact water exercise and we have raised the bar once again. Combining our world class exercise pool with the choice of hydrotherapy spa, we have seamlessly integrated both into one amazing unit, the DT-19 Dual Temp FitSpa. Consumers can choose the spa size of their choice, while enjoying a separate pool with the temperature which is maintained independently from the spa. We did not invent the dual temperature swim spa... we perfected it.

THE NEW

with a touch of a button. Artesian Spas brings Bluetooth® technology to your spa. Connect with any smart device of your choice and instantly start enjoying your favorite tunes.

The bba™ Bluetooth Audio System is fully integrated into the control panel of your spa for easy use.

STEREO SYSTEMS
OPTIONS

WiFi App Control

The **WORLDWIDE APP MODULE OPTION**, allows you to access your hot tub using an App on your smart device (Android™ or iPhone®) via a direct connection anywhere in the local proximity of your tub. Gain access anywhere in your house that you can connect to your local WiFi network, or anywhere in the world you have an internet connection to your smart device via 3G, 4G, or WiFi hot spots.

With the App, you can **ensure that your hot tub will be ready whenever you want to take a dip**. The App provides full interface control so you can set the temperature, turn pumps on and off and even set filtration cycles - all from your smartphone or tablet.

*The app's cloud access cost is free for the first 12 months and then \$24 per year after. If not renewed after 12 months, the app will continue to operate in local mode only.

SMART SPA CONTROL
OPTION

WATER PURIFICATION

CLEAN & PURE SPA WATER

Our water purification systems virtually eliminates the need for chemicals to oxidize contaminants and organics on contact. It converts oxygen molecules “in the air” into ozone. When organics such as bacteria, viruses, and bather load are burned up in the process, it then reverts back to pure, fresh oxygen.

Proven ozone technology effectively removes water impurities and microorganisms, reduces chemical usage and requires less maintenance. Your skin will feel soft, clean and free of harsh chemicals.

Clean spa water made easy...nature's way.

SAVING TIME AND MAINTENANCE

For residential spas that effectively remove water impurities and microorganisms, reduce chemical usage, require less maintenance and provide the convenience of one unit to clean your spa day after day both domestically and internationally.

Proven, reliable and green technology for a clean spa water.

OPTIONS

Diamond AOP™

The Diamond AOP™ process combines the Nature2® option, Microfiltration, high efficiency Circulation Pump, and the AquaNova™ UVC & Ozone Spa Sanitizer, to create a highly advanced oxidation process (AOP) for water purification.

Crystal ProPure™

Water Purification combines the Ozonator, Dynamic Injector, and the ProPure Mixing Chamber. All components work together to create an innovative water purification system.

About TidalFit Exercise Pools

The TidalFit exercise pool is built to the same world class quality standards that you would expect from May Manufacturing, LLC, who is renowned throughout the spa industry. Designed with an ideal combination of innovative engineering and artistry, the TidalFit is as constant in quality as it is in efficiency and design. Some of the most discriminating buyers acquire this exercise pool because it is intuitively user friendly, as well as being aesthetically appealing. Simply put, with its quality workmanship and exceptionally attractive features, the TidalFit is in a class of its own. TidalFit was recently seen on the ABC television show *Extreme Makeover Weight Loss Edition*.

www.TidalFit.com

Built in the USA for the World: TidalFit is sold in over 68 countries.
